Installing CE-100 version 1.0.0.0 or 1.0.0.1 on Windows 98, 2000, ME, XP-SP1 or XP-SP2

Installation Instructions:

Set-up your sewing machine with the embroidery unit attached.
Connect the USB cable between the machine and your computer.
Turn OFF the sewing machine.

- Load base software.
- Once base software is loaded, turn on the sewing machine, open Futura software and allow Futura drivers to install.
- Close Futura Program.
- Turn off machine.
- Save the update to your desktop.
- Run the update from your desktop.
- After the update is installed, turn on the sewing machine, and open Futura software. Your program is now ready to be used.

SINGER *is sewing made easy.*™
